DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose or suggest an optical fiber having a tip spaced from the diaphragm comprising a selection of fiber material, diaphragm material, housing material, ferrule material and bonding compound material having at least some differing thermal expansion coefficients there among the materials whereby the optical fiber tip to diaphragm distance changes to compensate for any temperature change induced changes in sensor sensitivity and offset dependence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
